

## Distance Learning – Week #2 – Westlake High School – U.S. History

With Japan attacking the U.S. Naval Fleet at Pearl Harbor – along with other places – America is officially in World War II.

If we were in class – we would have discussed and viewed the strategies the United States used to defeat enemies in Europe and the Pacific. Unfortunately – we cannot view soldiers jumping out of airplanes behind enemy lines – listening to the real soldiers, years later, discuss their experiences – watch the first 20 minutes of the Tom Hanks' film “Saving Private Ryan” – and much more! *Oh Well – On to this week's assignments. Having your textbook would help an awful lot...but you can always use the online textbook link.*

- 10.) If you have any problems, please email me. I do not have “office hours” as some of your other teachers might have – because I'm here basically 24 hours/day to respond to your email communications.
